WELCOME BACK TEACHERS!!!

The Siskiyou County Office of Education Instructional Materials Center is happy to welcome everyone back to a new school year! New Montague Elementary School Principal Gretta Brown wasted no time in bringing her staff (pictured below) to the IMC this week, where they took a tour of the facilities and received training in searching the AV and Library online catalogs, as well as our new streaming video service, California Streaming.

We would like to invite everyone to schedule a tour, it's very helpful for teachers to come and physically see the rich collection of resources available to them. The Montague teachers left with their arms full!

To schedule a tour for your school, contact Anne Hinchcliff at 842-8430 or Cheryl Hayden at 842-8428.

SCOE Audio Visual center is proud to announce our new streaming video service, California Streaming. We are able to offer California Streaming through a new partnership with the California Counties Educational Technology Consortium (CCETC). The service is available to all schools with AV contracts. We are excited about the content and new features available that will help you to use this excellent resource as an invaluable tool in your classroom. All content is reviewed and selected by California Educators and aligned to California Content Standards.

For California Streaming login information, contact your principal or administrator. For problems logging in, contact Anne Hinchcliff at 842-8430 or Cheryl Hayden at 842-8428.
